GLOBAL AND REGIONAL SEA-LEVEL CHANGES AND THE HYDROLOGICAL CYCLE

Edited by: D. Sahagian and S. Zerbini

Editorial vi

Geologic, isostatic and anthropogenic signals affecting sea level records at tide gauge sites in southern Australia
N. Harvey, A. Belperio, R. Bourman and W. Mitchell 1
Minimal late Holocene sea level rise in the Chukchi Sea: arctic insensitivity to global change?
O.K. Mason and J.W. Jordan 13
Hydrological impacts on seasonal sea level change
J.L. Chen, C.R. Wilson, B.D. Tapley, D.P. Chambers and T. Pekker 25
Regional sea level response to global climatic change: Black Sea examples
E.V. Stanev and E.L. Peneva 33
A potential interaction between sea-level rise and global warming: implications for coastal stability on the Mississippi River Deltaic Plain
D.M. Thomson, G.P. Shaffer and J.A. McCorquodale 49
Impacts of sea level rise in the New York City metropolitan area
V. Gornitz, S. Couch and E.K. Hartig 61

Research Papers
On modelling present-day and last glacial maximum oceanic $\delta^{18}O$ distributions
M.R. Wadley, G.R. Bigg, E.J. Rohling and A.J. Payne 89
Intermediate water signal leads surface water response during Northeast Atlantic deglaciation
S. Lassen, A. Kuijpers, H. Kunzendorf, H. Lindgren, J. Heinemeier, E. Jansen and K.L. Knudsen 111
Surface albedo in Ny-Ålesund, Svalbard: variability and trends during 1981–1997
J.-G. Winther, F. Godtliebsen, S. Gerland and P.E. Isachsen 127
Interannual lake level fluctuations (1993–1999) in Africa from Topex/Poseidon: connections with ocean–atmosphere interactions over the Indian Ocean
F. Mercier, A. Cazenave and C. Maheu 141
Polar ice sheets and global sea level: how well can we predict the future?
C.J. van der Veen 165
Estimation of the annual yield of organic carbon released from carbonates and shales by chemical weathering
C. Di-Giovanni, J.R. Disnar and J.J. Macaire 195
Geographical contributions to global climate sensitivity in a General Circulation Model
R. Colman 211
Predictability of sea level in the Meghna estuary of Bangladesh
O.P. Singh 245
A simple interactive vegetation model coupled to the GENESIS GCM
B.A. Cosgrove, E.J. Barron and D. Pollard 253

Discussion
Comment on "Onset of aridity in southern Western Australia—a preliminary palaeomagnetic appraisal" by Zheng et al. [Global and Planetary Change 18 (1998) 175-187]
J.D.A. Clarke and B. Pillans 279

Reply to the comment of Clarke and Pillans on "Onset of aridity in Southern Western Australia—a preliminary palaeomagnetic appraisal" [Global and Planetary Change 18 (1998) 175–187]
H. Zheng, C.M.A. Powell and Z. Li 283

Book Review
Global Warming: the Hard Science
R. Dickinson 287

SPECIAL ISSUE

GLACIATION AND REORGANISATION OF ASIA'S NETWORK OF DRAINAGE

Edited by: Lewis A. Owen, James T. Teller and Nathaniel W. Rutter

Introduction 289

Variations in the influence of riverine discharge on the Kara Sea during the last deglaciation and the Holocene
L. Polyak, M. Levitan, T. Khusid, L. Merklin and V. Mukhina 291
Geomorphic change in high mountains: a western Himalayan perspective
M.P. Bishop, J.F. Shroder Jr., R. Bonk and J. Olsenholler 311
A comparison of simulated monsoon circulations and snow accumulation in Asia during the mid-Holocene and at the Last Glacial Maximum
A.B.G. Bush 331
Estimation of the energy used to melt snow in the Tien Shan mountains and Japanese Islands
V. Aizen, E. Aizen, J. Melack, T. Nakamura and S. Kobayashi 349
Desert margins near the Chinese Loess Plateau during the mid-Holocene and at the Last Glacial Maximum: a model–data intercomparison
A.B.G. Bush, D. Rokosh, N.W. Rutter and T.B. Moodie 361
